

9700 SERIES

SI-LODEC (NZ) LTD.

New Zealand's premier on board electronic weigh specialists, with over twenty years experience in the NZ industry unleashes the heavyweight of multichannel indicators. Featuring large easy to read displays and state of the art programable options.

Designed For Flexibility, the 9700 series Weigh Indicators are the most accurate, most reliable easiest-to-operate on-board scale meter in the industry. They can easily be modified to meet the needs of changing system requirements.

No other meter has the capabilities, qualities and successful track record of the 9700 series.

Featuring

- Super-Bright 15 mm high, red, seven segment led display.
- Two-wire, non-polarity sensitive, digital technology provides ultimate reliability.
- Quick two step calibration.
- Advanced calibration function for calibrating the scale without a load.
- Simple diagnostics allow each system component to be quickly checked from the meter.
- Available in one, two, three and four channel
- Capable of monitoring individual load cell outputs.
- Quick switching from GROSS to NET and quick TARE RESET.

- Easy trailer ID function provides for interchanging multiple trailer and tractors.
- Compatible with all models of On-board scale load cells and sensors.

Only SILODEC offers the ease of operation of a meter that requires a simple two step calibration and the ability to diagnose the system components directly from the meter, but thats not where it ends SILODEC is dedicated to customer support and back up offering you on call service when you need.

SILODEC has a full range of accessories available, from hand held remote displays , the ability to attach printers and connect into most GPS Fleet management units available in todays hi-tech market.
