Any Industry...  
Any Truck...  
Anywhere...  
Every time

**SI-LODEC (NZ) LTD.**

*Delivering excellence thru innovation*

At SILODEC we realise that even now that you have the worlds best scale system there could be one or two things that would really help you work smarter, to make life a little bit easier.

Here's a few ideas we came up with,

**REMOTE HAND HELD DISPLAY,**

For those situations when you cant be everywhere at once we designed the only unit you will ever need that can even be viewed in direct sunlight

**PRINTERS,**

Thermal or Dot Matrix you decide for the times you need to keep a hard copy of the load, or hand a copy to the customer

**OVERLOAD WARNING LIGHTS**

For those times when a visual sign is all that is required we can customize almost any lighting configuration and design to suit the looks and style of your vehicle.

*If you dont see what you need just ask*

# YOU KNOW THE NAME

**So now its time to hear about why you should choose us.....over them**

SILODEC started over twenty years ago and since it's conception in New Zealand we have remained at the forefront of innovative electronic weigh technology, giving us the unenviable title of the countries Premier On-Board Electronic Weigh Specialists. Since that day we have been dedicated to sourcing and manufacturing product to meet our customers requirements and design enabling us to offer you the countries best systems with unparalleled knowledge and support.

## But we don't stop there

Talk to us about all your requirements, because you will be surprised at what we can do and how easy we can make it work for you. SILODEC is the only one to boast a vast array of extra add-ons and features as off the shelf solutions,

But wait there's more.....

We are almost always able to tailor a specific requirement just to your needs, from printers, remote displays and hand held units to being able to interface with most of the available GPS and Fleet Management Systems in todays modern transport fleets...heck if you want you can have it all, with SILODEC your not limited to just a single option.

**Full Parts  
Warranty**

## Unparalleled after sale support

We remain committed to you before and after your purchase. Thats what make us the world leader in electronic on board weighing. Once your unit has been installed either by yourself or one of our factory trained staff we will calibrate the scale specifically for your requirements and train your operators in its use and functions. But thats not where it ends once this training is complete additional support is available from us 24-hours a day 7 days a week.

## At a glance

Industry leading scale supplier/manufacturer for over twenty years

Proven reputation for superior accuracy and product reliability

Manufactured under strict international standards ISO 9000

Unsurpassed after sales support and full parts warranty
